

Studio Legale AI

On-premise legal AI for Italian law firms

Rome Bar Association Convention — September 2026

Privacy by design · Data sovereignty · Italian & EU legal focus

The problem with legal AI today

Why Italian lawyers are reluctant to adopt it

Traditional cloud legal AI

- Client and case data end up on third-party cloud servers
- Professional secrecy is hard to guarantee
- Fragmented tools: research, drafting, practice management, PEC, calendar
- Generic AI with little specialization in Italian law
- Per-user pricing that grows with the team

The on-premise answer

- Acts and case files stay physically in the firm
- The Bar is data controller, not the vendor
- One environment for research, drafting and practice management
- Agents specialized in Italian, European and Cassation law
- Flat monthly fee, not per user

Studio Legale AI

A full-stack platform for Italian law firms

- Local NVIDIA DGX Spark hardware: 128 GB unified memory, Blackwell GPU, offline-capable
- 10 specialized AI agents for civil, criminal, administrative, tax, labour, European, Cassation, opinions, acts and governance
- Italian + European legal form library with 610+ ready-to-use modules
- Multi-engine research on Normattiva, EUR-Lex, CURIA, ECHR, doctrine, administrative justice and Italian databases
- Local RAG indexing up to 100,000 firm documents
- Professional export to PDF, DOCX and Markdown with automatic header and protocol
- Forensic calculator for court fees, interest, lawyer fees and expenses

Local hardware: NVIDIA DGX Spark

An AI supercomputer inside the firm

Technical specs

- NVIDIA GB10 Grace Blackwell GPU
- 6,144 CUDA cores, 48 SMs, sm_120/121 compute
- 128 GB LPDDR5X unified memory (CPU+GPU)
- 4 TB NVMe SSD (8 TB option)
- Quiet: < 35 dB in normal operation
- Plug & play setup in 30 minutes

Security & compliance

- No data in the cloud by default
- LUKS AES-256 disk encryption
- TLS 1.3 on all communications
- Immutable and exportable audit log
- Nightly local NAS backup (Enterprise)
- GDPR, AI Act and professional-secrecy ready

10 specialized AI agents

The right expert for every task

General Lawyer

Quick questions and orientation

Legal Researcher

Legislation, case law, doctrine

Legal Drafter

Generation of 11 document types

Legal Opinion Specialist

Structured legal opinions

Legal Validator

Formal checks on legal acts

Contract Analyst

Contract analysis and review

Cassation Researcher

Supreme Court judgment verification

Legal Secretary

Notes, reminders, solicitations

EU Law Specialist

European Union law

Owner Orchestrator

Governance and owner advisory

Complete firm management

From dashboard to calendar

Dashboard

Real-time counters, chat with General Lawyer

Clients

Full registry with warnings and linked cases

Cases

Statuses, deadlines, documents and advanced filters

Documents

Guided generation of 11 document types

Research

7 research engines on Italian and EU sources

Opinions

Reasoned answers: question, rule, analysis, risks

Calendar

Hearings, deadlines, automatic reminders

Calculator

Court fees, interest, lawyer fees, expenses

Legal document generation

Professional drafts in 2–3 minutes

11 document types

- Formal letter and default notice
- Civil summons
- Defence memorandum
- Administrative / tax appeal
- Written legal opinion
- Legal assistance contract

Quality & control

- Automatic pre-legal research
- Cassation citation verification
- Header, power of attorney and signature pre-filled
- AI drafts only the legal body
- Automatic link to client and case
- Automatic protocol (e.g. 2026/001)

Legal forms library

610+ ready-to-use modules

- Civil: summons, memoranda, motions, injunctions, oppositions, appeals
- Criminal: complaints, civil-party appearance, motions, Cassation appeals
- Administrative: TAR appeals, observations, Council of State memoranda
- Tax: tax-commission appeals, memoranda, oppositions
- Labour: default notices, appeals, settlements, dismissal letters
- European: 60 modules for CJEU appeals, preliminary rulings, infringement complaints, ECHR
- Each module includes operational notes, legal references and checklists

New: European Law branch

The only Italian competitor with procedural EU specialization

What it includes

- 60 EU modules for appeals, preliminary rulings, infringement complaints, ECHR
- 4 EU document types (Art. 263, 267, 258 TFEU, EU Opinion)
- Dedicated EU Law Specialist agent
- EUR-Lex, CURIA/CJEU, ECHR research

Advantages

- Fast CJEU tools: case validation, deadlines, procedural dates
- Standalone EU Validator, separate from Italian checks
- References to TEU, TFEU, ECHR where appropriate
- On-premise: no case data in the cloud

Multi-engine legal research

Italian and EU sources in one query

Normattiva

Italian laws, decrees, regulations

Administrative Justice

TAR and Council of State rulings

ECtHR

European Court of Human Rights

EUR-Lex

EU directives, regulations, decisions

CURIA / CJEU

Court of Justice of the EU rulings

Doctrine

Scientific articles and journals

Italian Databases

ItalggiureWeb Cassa Forense + publisher placeholders

Connectors & integrations

Link what you already use

Italian legal databases

- ItalgireWeb (Cassa Forense): active
- De Jure, One Legale, Dike, Eurex, Juris Data: placeholders
- Fallback to quick links if automation fails

Practice tools

- AvvoDesk, LexDoctor, Legal360
- iManage Work, NetDocuments
- Clio Manage
- Certified email and e-filing placeholders
- Microsoft Word add-in (roadmap)

Forensic Calculator

Fast and reliable legal calculations

- Civil and administrative unified court fees for first instance, appeal and Cassation
- Legal, default and historical interest with updated rates
- Indicative lawyer fees under D.M. 55/2014 parameters
- Justice expenses: service of process, expert opinions, technical consultants, court fees
- Monetary revaluation via indicative ISTAT FOI indices
- All amounts are indicative and include legal references

Professional export

PDF, DOCX and Markdown

PDF

- Law firm and lawyer header
- Power of attorney for procedural acts
- Signature block
- Automatic protocol number

DOCX

- Times New Roman 12 pt font
- Native Word styles (Heading 1, 2, 3)
- Auto-updatable table of contents
- Tables, lists, document metadata

Competitive comparison

Why choose on-premise

Solution	Model	Focus	Price
Studio Legale AI	On-premise	Full Italian/EU stack	€500-2,500 flat
Lexroom	Cloud	Research & drafting	~€80/user
Simpliciter	Cloud	Assisted research	€19-39
Aptus.AI	Cloud	Compliance & regs	€199-1,040
AvvoDesk	Cloud	Practice management	On request
Legal databases	Cloud	Case law & comment	€300-3,000+/yr

Competitive advantages

What no cloud competitor can offer

- Only complete on-premise legal AI platform in Italy
- Native procedural EU law: 60 EU modules, EUR-Lex/CURIA/ECHR research
- Flat fee, not per user: cost per lawyer drops as the team grows
- Compliance by design: GDPR, AI Act, professional secrecy, immutable audit log
- Unified stack: research + drafting + RAG + practice management + calendar + email
- Integrated Italian legal databases with quick-link fallback
- 10 specialized agents with task-optimized temperature

Packages

Flat monthly fee, no hidden costs

	BASE	PROFESSIONAL	ENTERPRISE
Target	Solo lawyer	Firm 3-10 lawyers	Firm/Network 10+
Agents	7 standard	7 + 1 custom	7 + 3 custom
Documents/month	50	200	Unlimited
Nemotron research	20	100	Unlimited
Archive	1,000 docs	Unlimited	Unlimited + sync
Support	Email 24h	Email+phone 8h	4h + account
Monthly fee	€ 500 + VAT	€ 1,000 + VAT	€ 2,500 + VAT
Setup	€ 990	€ 990	€ 1,990

Estimated ROI

Investment pays back in 1-2 months

Operational efficiency

- Drafting time saved: 60-70%
- Research time saved: 50-60%
- Formal errors reduced: 80%+
- Average document generation: 2-3 minutes

Economics

- Average lawyer hourly rate: €150-250
- Payback: 1-2 months for a firm with 3+ lawyers
- With 5 Pro users: ~€100/user/month
- With 10 Pro users: ~€50/user/month

Roadmap

What's coming next

- Q3 2026 — Microsoft Word add-in for drafting directly in Word
- Q3-Q4 2026 — Certified email and e-filing module (civil PCT, UNEP)
- Q4 2026 — Publisher database connectors (De Jure, One Legale, Dike)
- Q4 2026 — Practice-management integrations (AvvoDesk, LexDoctor, Legal360, iManage, NetDocuments)
- 2027 — Voice assistant for phone intake and secretary tasks
- Ongoing — Model updates, new form modules, expansion of EU law

For the Rome Bar Association

A guided digitalization opportunity

- Customizable pilot package with OAL branding and dedicated knowledge base
- 12-18 minute live demo with realistic cases for members
- On-premise at the Bar headquarters or dedicated GeneForge server
- Role-based access: member lawyer, Bar secretariat, GeneForge admin
- Basic training and Italian-speaking technical support included
- Publishable case studies and testimonials from pilot firms
